

### Specification Sheet

|                        |                                                                                                                                                                               |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product:               | <b>10% (w/v) BSA, ultra pure, biotin free, immunoglobulin free</b>                                                                                                            |
| Code:                  | <b>#BSA1</b>                                                                                                                                                                  |
| Protein concentration: | 100 mg/ml                                                                                                                                                                     |
| Buffer base:           | 0,15M PBS pH 7,3                                                                                                                                                              |
| Preservative:          | BND, 1000 ppm                                                                                                                                                                 |
| Lot:                   | 892419                                                                                                                                                                        |
| Storage:               | +2°C ~ +8°C                                                                                                                                                                   |
| Expiration date:       | 05/2027                                                                                                                                                                       |
| Recommended use:       | constituent part of blocking formulations, diluent systems, calibrator and conjugate stabilizers, washing buffers (e.g. in immunoassay test systems designed in 3D-IF format) |
